Dear Marshall County Planning an Zoning Commission,

We at East Bay Association have a concern about the rezoning of lots 1-9 in Roykota Legacy Estates for Robert Norton.

EBA is made up of 15 cabins an owners across from the golf course. We would like the lots to stay a golf course. The course is already small with narrow fairways. We are concerned the houses will be to close to the fairways. What happens if a golfer hits a house, person or pet in there yard? IF a ball lands on home owners property an a golfer retrieves it is it trespassing? Also more traffic on a already busy dusty road.

Sincerely; from an

EBA Owner
